PROFILE

With experience in the Information Technology, I have developed strong expertise in user support, infrastructure development, system administration and various information technology processes.

PROJECT COMPLETED

- Performed analysis and monitoring of the internet backbone on the main router, ensuring dedicated corporate bandwidth to support administrative operations/VPN connectivity.
- Ensured that LAN cabling infrastructure installation followed standard topology to maintain optimal network performance. Performed reinstallation of the cabling system when performance degraded and ensured all PCs were directly connected to the central modular switch.
- Managed network traffic by implementing a MikroTik CCR router with firewall, failover, and bandwidth management features, and separating users into multiple work areas using VLAN segmentation.
- Developed policies, SOPs and documentation forms for the administrative system.
- Installed an online finger print/face recognition machine, configured an attendance management application and processed attendance data as part of the payroll process.

RUDI FAISAL

SECTION HEAD OF INFORMATION TECHNOLOGY

SKILLS

- Operating system : Windows 10/11, Linux Ubuntu, Windows Server.
- Networking : TCP/IP, VLAN, Routing and Switching.
- Windows Server 2019: Active Directory, DNS, GPOs, FSRM.
- Simulator Technology : GNS3, Cisco packet tracer.
- Virtual Technology: VMware Vsphere, proxmox VE.
- Wireless/router: Cisco, Mikrotik, ubiquity, cambium.
- Technology GPS and solar cell system.
- Network administration (switch, router, firewall), Fortinet.
- PTZ/DOM camera (Hikvision/Dahua).
- Two-way radio and repeater Motorola GR500/CDR700.
- PABX: NEC/Nitsuko, IP-PBX Hybrid Panasonic.
- Attendance machine RTA600, HTA860, X105-ID, Face Recognition /finger/RFID X-601, ZKTeco smart AC1.
- HRIS System and Attendance Management and payroll Solution.

WORK EXPERIENCE

PT. RODA JAYA SAKTI, CENTRAL OF SULAWESI Section Head of Information Technology

August 2023 – Present

Achievements

- Developed and maintained the AD domain server for RODAJAYASAKTI.CO.ID.
- Resolved issues caused by improper cabling installation to the modular central switch, which had resulted in poor data connection quality. Implemented cable route numbering and created network diagram for documentation.
- Configured and replaced all radios installed in each unit, migrating from analog radios to a digital radio system.
- Replaced the manual attendance recording system using Excel with an attendance management application integrated with an online facial recognition system.
- Built a point to point wireless network to support online attendance machines and PTZ cameras powered by a solar energy system in the mining area.
- Responsible for all IT assets with a total value of IDR 3.5 billion.

PT. SAMUDERA MULIA ABADI ICT Supervisor

April 2016 – November 2022

Achievements

- Developed and maintained the AD domain for SAMUDERA.CO.
- Successfully established information technology infrastructure at project sites during the early stages of production operations.
- Deployed wireless access point infrastructure in the field to support the Fleet Management System.
- Installed wireless links to support PTZ cameras in the PIT area.
- Constructed a mini shelter for data communication equipment and installed a solar power system.
- Registered ISR for radio permits and set up a CDR700 repeater.

Responsibilities

- Responsible for IT operations in 3 project areas: Toka, Weda, Gag.
- Managed information technology projects implementation and ensured project completion within the timeline.

PT LOGINDO SAMUDERA MAKMUR TBK

- Set up and configured access to the company's email system.
- Developed a company profile website to support company promotion and improve business processes.
- Assisted in implementing applications to improve production targets and business processes.
- Managed user access authorization to the company's internal data by implementing Active Directory Domain Services.
- Established a company data storage system using File Server Resource Manager (FSRM) to manage and control file storage policies.
- Developed and implemented a server backup and recovery system to ensure data availability and readiness for server recovery in the event of failures.
- Installed and configured a hybrid PABX system to enable communication between project areas among employees via IP phones.
- Implemented a point to point wireless network across multiple work areas to support CCTV installations and provide LAN connectivity.
- Installed IP cameras in building areas and PTZ cameras to provide surveillance coverage for larger areas.
- Built solar power systems for devices in locations without access to electrical power lines.
- Installed and implemented a grounding system to protect IT equipment from lightning strikes.
- Installed and configured a radio repeater system using Motorola GR500/CDR700.
- Installed and configured digital radio devices in mobile units and base stations operating in work areas.
- Installed GPS tracking systems for LV units and logistics trucks using GSM signals.

ICT Supervisor

July 2014 – April 2016

Achievements

- Developed and maintained the AD domain for LOGINDO.COM.
- Designed and rebuilt a modular switch in the communication room that was not installed according to standards.

Responsibilities

- Responsible for IT operations in Balikpapan office and workshop muara kembang.
- Worked in shift schedules and provided flexible support for daily operations and maintenance of internet, email, and ERP access in the office and workshop.
- Organized and maintained email and phone access using satellite connections on vessels.

PT. BORNEO CAHAYA KEMILAU

System Administrator

Mei 2012 – July 2014

Role Description

- Set up and configured computer and server systems, including hardware, operating systems, and applications.
- Designed, maintained and optimized network performance and ensured regular backup of work files.
- Configured MikroTik devices as firewalls, for bandwidth management, routing, bridging and point to point wireless connections.
- Designed and built a payroll application using Microsoft access with attendance data sourced from an attendance machine.

PT. Telen Indoclay

IT Superintendent

November 2008 – April 2011

Role Description

- Built and implemented office IT infrastructure, including:
 1. Provided a reliable internet backbone.
 2. Designed and installed data and telephone cabling systems.
 3. Configured routers as firewall devices.
 4. Set up and configured data sharing servers.
 5. Installed and configured antivirus servers.

PT. PT. PETROSEA

IT SUPPORT SITE/COMMUNICATION OFFICER

November 2001 – Mei 2008

- Provided technical support and assistance to end users, resolving hardware, software and network related issues.
- Maintained radios communication system and the GR500 repeater to ensure reliable communication.
- Checked and resolved issue related to UPS, printers, wireless, network and data /telephone cables connectivity issues.

EDUCATION

STIKOM SURABAYA

December 1994 – October 1999

Certifications

March 2003 - Programming & Trouble Shooting mobile/portable radio
 March 2008 - Windows Server Configuration and Administration.
